GHALA ALSHAMMARI

Full Stack Developer | Backend-Focused (Python / Django)

Phone: +966501859164 | Email: ghalaalnmasi@gmail.com

LinkedIn: linkedin.com/in/ghalaalnmasi | GitHub: github.com/GhalaAlnmasi

PROFESSIONAL SUMMARY

Software Engineer with experience in backend development, REST API design, and full-stack web application development. Proficient in Python, Django, Django REST Framework, SQL, and Git, with practical experience gained through a software development internship and an intensive full-stack bootcamp. Strong foundation in software engineering principles, API integration, debugging, and collaborative development. Motivated to build reliable, scalable applications and contribute to high-performing engineering teams.

TECHNICAL SKILLS

Python, Django, Django REST Framework, REST APIs, Django ORM · JavaScript · HTML5 · CSS3 · React (basic) · SQL, MySQL · Git, GitHub · VS Code · Figma

PROFESSIONAL EXPERIENCE

Software Developer Intern — RFQH | 3 months **2026**

- Worked on Flutter application development and supported the connection between front-end screens, backend services and APIs.
- Contributed to API-related tasks, backend workflows and feature testing to improve application reliability and user experience.
- Supported project delivery activities including debugging, reviewing integration issues and preparing the application for deployment readiness.

Full Stack Developer (Bootcamp) — Tuwaiq Academy | **2025**

- Developed scalable full-stack web applications with backend-focused architecture using Django and REST APIs using Python, Django and DRF; implemented REST APIs and server-side logic using Django ORM.
- Implemented responsive front-end pages with HTML, CSS and JavaScript; ensured cross-platform/mobile responsiveness and basic React integration.
- Integrated databases (SQL/MySQL), debugged backend–frontend interactions and delivered end-to-end features for course projects.

UX/UI Designer — Aljouf Chamber | **2023**

- Designed web interfaces, UI components and assets in Figma/Canva; translated visual designs into front-end implementations.
- Collaborated with developers and stakeholders to align design with functionality and improve user interactions.

PROJECTS

- Developed RESTful APIs using Django REST Framework with JWT authentication
- Implemented OTP authentication system using email services
- Integrated payment gateway and handled payment workflows
- Designed backend architecture separating API layer and business logic
- Built and tested endpoints using Postman and automated Django tests

EDUCATION

Bachelor of Computer Science — Jouf University GPA:
4.44 / 5 | Honors: Second Honored

CERTIFICATIONS

PCEP Python Certification (2025)
SCE Specialist Computer Science (2025 - 2026)
